*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part * of the * Regulations.*

**(See page 2 of this STC for the Certification Basis.)*

Original Product—Type Certificate Number: A3WE
Make: Boeing
Model: 727 series

Description of the Type Design Change: Modification of the neutral settings of the inboard and outboard ailerons and aft flap segments in accordance with Winglet Systems, Inc. Master Drawing List, Document No. VA000009, Revision A, dated June 9, 1998 or later FAA approved revisions.

Limitations and Conditions: A copy of this certificate and Winglet Systems, Inc. Document no. VA000009 must be maintained as part of the permanent records for the modified aircraft. The modified airplane must be operated in accordance with Winglet Systems, Inc. Airplane Flight Manual (AFM) Supplement No. PK727904-xxx. FAA approval of particular serial number is indicated by an approved AFM supplement identifying the appropriate model series (-xxx) and listing effective serial numbers for that series. Approval of this change in type design applies to Boeing Model 727 series aircraft that are otherwise unmodified. Compatibility of this design change with previously approved modifications must be determined by the installer. This approval shall not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
